

Dear FCC:

After reviewing the facts and seeing the results of previous relaxations, it is not in the interest of this nation to allow that the lessening of the regulations and allowing fewer owners to own a greater percentage of stations be allowed. In fact I expect given the degradation of the local press in regards to centralized information that the previous regulations be re-enacted. If the press is not allowed to remain local and free then the present administration will require to be voted out.

Regards, c deering
